CREeping BENTGRASS

TEE 2 GREEN

PureGreen™

Powered by Tee-2-Green, PureGreen is a proprietary brand of top performing creeping bentgrass varieties specifically selected for green use. With enhanced genetics and unique performance characteristics, this blend delivers on the highest level. PureGreen offers cutting edge developments in rapid establishment, aggressive root development, cold germination, and disease resistance. On top of the value-added traits PureGreen has remarkable density and turf quality, providing distinct beauty alongside performance.

PRODUCT FEATURES

- Rapid Establishment
- Disease Resistance
- Aggressive Root Structure
- Cold Germination
- Turf Quality
- High Density
- Optimal Playing Surface

SEEDING RATE:

Recommended seeding rate is 1 to 1.5 lbs. per 1,000 sq. ft. for new plantings and 0.1 to 0.25 lbs./1,000 sq. ft. for interseeding.
